Two North Technologies

Empowering Early Intervention Through Technology

Who We Are

At **Two North Technologies**, we create custom software solutions designed to simplify and enhance Early Intervention (EI) services for children in the Part C system. With over a decade of experience, we understand the unique challenges faced by state-run programs and provide tools and consulting services that improve efficiency, scalability, and outcomes.

Why Choose Us?

15+ Years Experience	Deep knowledge of Part C systems and EI program requirements.
Commitment to Innovation	Closing the gap between service demands and available technology.
Trusted Partner	Built by developers who have worked in the field and understand provider needs.
Efficiency Gains	Focusing more time on family needs instead of paperwork
Improved Outcomes	Track and measure the effectiveness of EI Services with custom reporting and analytics

Our Solutions

"First Steps"

Web Referral

A user-friendly web platform that makes it faster and easier for families to submit online referrals and get the services they need.

Ages 0 - 5

- **Seamless Referrals**: Reduces administrative delays.
- **Family-Focused**: Simplifies access for those who need it most.
- **Reliable and Secure**: Meets compliance standards to protect sensitive data.

"F.U.S.E"

EI Service Platform

A comprehensive, mobile-friendly EI platform built for the needs of state programs.

- **Streamlined Processes**: Automates reporting, case management and insurance records.
- **Customizable Dashboards**: Tailored modules for agency-specific workflows.
- **Integration**: Seamlessly connects with third-party billing and data systems.
- **Scalable Design**: Handles growing demand and diverse regional needs.
